

Empathy Map — Amna khan

(Fitness App User)

Section 1: Overview

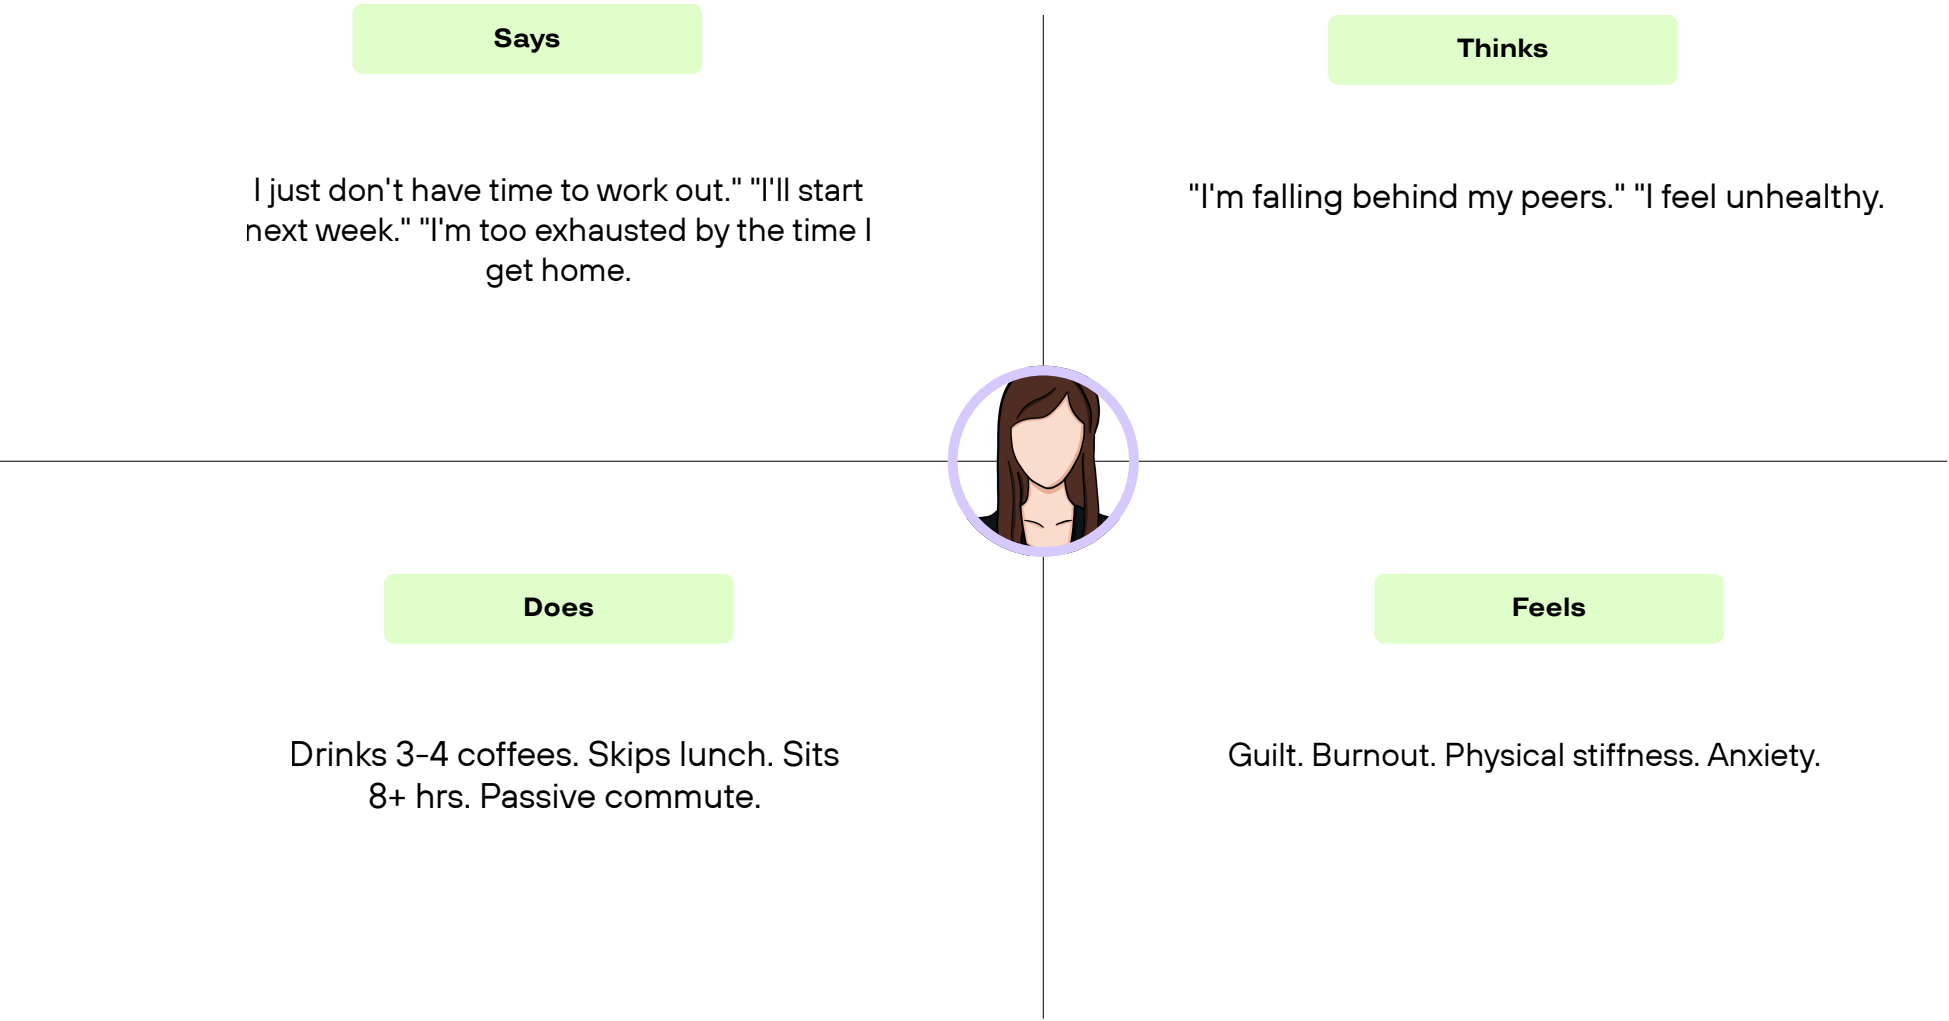

Amna Khan— Age 29, Marketing Executive

Designing a fitness app for busy office professionals who struggle to find time to exercise. Amna wants stress relief and mental clarity, but faces constant time pressure, exhaustion, and unrealistic fitness app expectations.

Target Audience: Office professionals, 25-40, 40+ hour work weeks

Section 2: Team Insight

Insight: Because Amna feels guilty and physically drained but has no spare time, she needs an app built around short, desk-friendly micro-workouts not long gym sessions or loud, gamified experiences.
